SUMMARY

Highly motivated and goal-oriented student aiming to excel in software Engineering. Demonstrates excellent analytical and organizational skills developed through school projects where I assumed leadership roles. Aspiring to leverage my skills and passion for software engineering to make a meaningful impact in the industry.

SOFT SKILLS

- Negotiation techniques
- Knowledge of programming technologies
- Communication
- Teamwork
- Problem Solving
- Adaptability
- Emotional Intelligence
- Digital literacy

TECHNICAL SKILLS

- JavaScript - Intermediate
- React - Intermediate
- Figma - Intermediate
- CSS - Intermediate
- Python - Intermediate
- Django - Intermediate
- SQL - Intermediate
- CSS - Intermediate

PROJECTS

Ticket Onclick

(JavaScript, React, CSS, Python, PostgreSQL, Flask)

This platform aims to simplify the event discovery and booking process by offering a user-friendly interface, secure payment processing, and real-time ticket availability updates. It caters to both event organizers and attendees, ensuring a seamless experience for all users., <https://ticket-onclick-8ige.vercel.app/>

Bot Battlr

(JavaScript, React, Python, MySQL, Flask)

Get access to over a hundred bots and create an army of your own by adding, removing and even discharging bots., <https://comforting-medovik-7cdea9.netlify.app/>

EDUCATION & CERTIFICATIONS

Certificate: Software Engineering

Moringa School June-Nov 2024

Certificate: Computer Studies

Rift Valley Institute Jan-March 2024

Certificate of Secondary Education

Nyandarua High School Jan-Nov 2024

Certificate of Primary Education

St. Francis of Assisi Jan-Nov 2024

HOBBIES & INTERESTS

- **Coding** to solve challenges and create innovative solutions.
- **Cycling** to maintain physical fitness and mental clarity.
- **Reading** novels to enhance imagination and critical thinking.
- **Watching** investigative series for analytical insights.
